Dagsê aan al die NKJV lede. Ons Hartie verskil so klein bietjie van vorige uitgawes. Die fokus van die nuusbrieff het geskyf na 'n bron van belangrike inligting oor die jagbedryf asook ons toekomstige aktiwiteite. Toepaslike besighede word ook meer geleentheid gebied om bekostigbaar te adverteer op ons platform. Fotos, artikels en terugraportering van aktiwiteite wat voorheen in die Hartie verskyn het word nou eerder gehou om in ons jaarlikse Hartebees tydskrif te plaas. Sodoende vermy ons enige moontlike herhaling en word die Hartebees meer materiaal gegun.

I would like to draw your attention to the upcoming Junior Winter Camp which still has a few openings for the junior wanting to learn more about nature, conservation, survival and hunting. All the necessary information can be found on pages 4-6. Don't miss out on this golden opportunity which promises life-long memories to anyone that attends. This is our flagship junior activity of the year so there is no holding back in offering the best that we can. Another opportunity relating to our juniors is the annual CHASA Junior Hunter and Mentor Lucky Draw. There are big cash prizes on offer ....and all it takes is a photograph of a junior hunter with his or her buck. Check out page 15 on how to enter.

Please also take note of the Hunting Proclamation for The Northern Cape which hasn't changed since 2013, but which is included once again for those of you that do not have it. Also repeated is a description of what is required in a fire-arm application motivation before NCHA can issue an endorsement. It is important to follow these guidelines to avoid wasting time by having to make corrections during the application process.

Die adverteerders is ons goedgesind en daar is baie wat al jare deel uitmaak van ons Hartie nuusbrieff en Hartebees tydskrif. Ek vra dat ons as lede die moeite maak om hierdie besighede te ondersteun en help om te verseker dat hulle deure oop bly en sodoende die ondersteunings siklus aan die lewe hou. Onthou dat daar verskeie NKJV items te koop is. Verskeie word op bladsy 17 uiteengesit. Kontak gerus vir Madelaine op die kantoor nommer. Verder wens ek almal 'n veilige en suksesvolle tyd in die jagveld.

Jagters Groete Charles

# Winter camp 2022

Our annual Winter Camp for juniors aged 15 to 18 years is around the corner and planning for the week long experience is in full swing. There are only a few openings left for potential campers so don't miss out on this once in life-time opportunity. The fee as indicated on the adjacent advert is the lowest it's been for many years due to the NCHA being able to subsidize a large portion of the cost per child. It is truly great value for money in terms of the knowledge, fun, good food and development of team spirit that will be on offer.

Just a small taste of what will be presented:

- Map reading, direction and orientation.
- First Aid.
- The challenging night Candle Shoot.
- Mammal classification and identification.
- Introduction to hunting with falcons and dogs.
- Bow hunting demonstration.
- Fire-arm legislation.
- Introduction to re-loading of ammunition.
- Sharpening and maintenance of knives.
- Field dressing of a carcass demonstration.
- Venison preparation and making of biltong.
- Handling a shotgun and introduction to wing-shooting (game-birds).
- Tying of knots.
- Star gazing and night orientation in the veld.
- Night march.
- Packing your hunting kit.
- Hunting and skinning your own buck.
- .....and much more

..... Check out our website [www.ncha.co.za](http://www.ncha.co.za) for the entire program details and application form.

Alternatively contact the NCHA office at 053 8311480 between 08h30 and 13h00 and chat to Madelaine.

## NCHA requirements for motivations when Endorsements are requested

When writing a Motivation for a Firearm the NCHA requires the following to be included if the member requires an Endorsement from the NCHA.

- 1) Full name, ID number, address and contact number of the member.
- 2) The firearm make, calibre and serial number.
- 3) The species of animal/bird that the member intends to hunt with this firearm.
- 4) Technical specifications regarding this calibre that makes it suitable to be used on these species.
- 5) Names of farms, the farm owner's names and their contact details of where the member has previously hunted.

If you are a certified Dedicated Hunter then include in the motivation that you are applying for a "license to possess a firearm for dedicating hunting in terms of Article 16 of the Firearms Control Act No. 60 of 2000."

The advantages are that you will be able to have in your possession more than 200 rounds of ammunition for that calibre and will be able to own more than 4 firearms.

The license will be valid for 10 years.

If you are not a certified Dedicated Hunter then include in the motivation that you are applying for a "license to possess a firearm for occasional hunting in terms of Article 15 of the Firearms Control Act No. 60 of 2000."

Remember as an Occasional Hunter you may not have in your possession more than 200 rounds of ammunition for that calibre and will not be able to own more than 4 firearms.

The licence will be valid for 10 years.

When applying for handguns mention that you carry a handgun in the veldt to administer a "coup de grais" or "doodskoot" on wounded animals as this minimises meat and trophy damage.

When applying for .22's mention that this is a good way to practice during the off hunting season as it is cheap and that it is a good calibre to start training/exposing novices to shooting.

Members should also be aware that their applications should also take into account the local "NATURE CONSERVATION REGULATIONS" and "ACTS" and the motivations should therefore not contain anything that is contrary to the LAW.

Examples of the things to look for in the act/regulations are:-

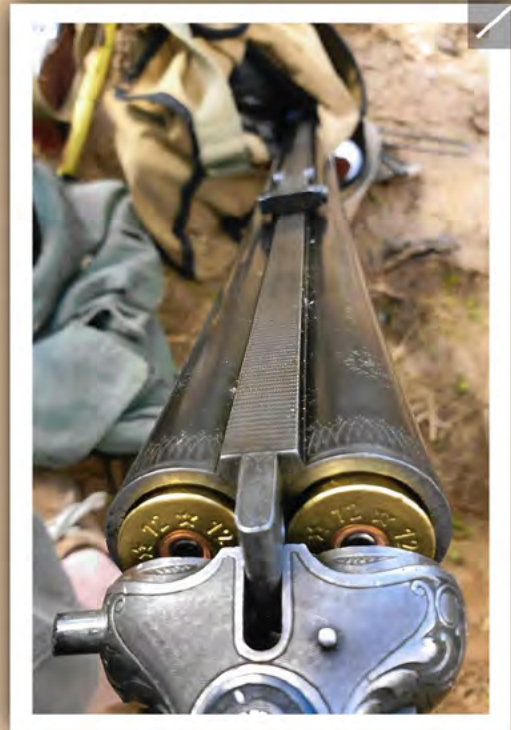

- 1) Certain species are only allowed to be hunted with a firearms of a minimum calibre of .270 of an inch.
- 2) Certain species are only allowed to be hunted with a firearms of a minimum calibre of .375 of an inch.
- 3) No animals may be hunted with a Rimfire cartridge of 5.56mm or smaller.
- 4) In certain provinces it is illegal to hunt mammals with a shotgun, so don't mention that slugs can be used on any animal (e.g. Warthog and Jackal).  
Only mention the bird species and the relevant shot sizes to be used on them.
- 5) Many other points regarding when permits are required for certain types of hunting, hunting methods, etc.

Please don't ask us to provide all the details in the regulations/acts as we might miss something and might be blamed for not bringing it to the members attention.

Go and read these documents that are available in electronic format if you ask the DEPARTMENT OF ENVIRONMENT AND NATURE CONSERVATION to send you a copy.

You will learn a lot of other interesting things if you read these documents and might find out that you are not complying with the LAW in some instances and if caught out this will have serious implications.

Remember  
**IGNORANCE IS NO EXCUSE.**
